ALZHEIMER'S DISEASE-RELATED DEMENTIAS:

Research Challenges and Opportunities

Please join leading neuroscientists, physicians, and public and private stakeholders in discussions of key challenges and special opportunities in research on Alzheimer's disease-related dementias. The workshop is convened under the 2012 National Plan to Address Alzheimer's Disease to develop recommendations on research priorities in the areas of frontotemporal, Lewy body, mixed, and vascular dementias.

Sponsored by the

National Institute of Neurological Disorders and Stroke

in cooperation with:

- National Institute on Aging
- Alliance for Aging Research, ACT-AD
- Alzheimer's Association
- Association for Frontotemporal Degeneration
- USAgainst Alzheimer's

Natcher Conference Center

National Institutes of Health, Bethesda, Maryland
