Food and Drug Administration
The President’s Precision Medicine Initiative (PMI)

To enable a new era of medicine through research and technology that empowers patients, researchers, and providers to work together toward development of individualized treatments.
Precision medicine – Tailoring Health Care to Each Patient

- The right treatment
- The right patient
- The right time
Precision Medicine Initiative: Modernizing FDA Regulation of Genomic Laboratory Tests

• Need to ensure that the information that patients receive from NGS tests is accurate and relevant to their condition (analytically and clinically valid)

• *Differences in data volume and interpretation call for a new regulatory approach* that will ensure that patients and providers are able to make treatment decisions based on accurate test results
